Overview

With each software release, we work to improve the Contractor Performance Assessment Reporting System (CPARS) and Federal Awardee Performance and Integrity Information System (FAPIIS) user experience and improve the quality of information available from CPARS and FAPIIS. We do this through a combination of minor enhancements and fixing known issues. This document summarizes the customer-facing changes that were made to the CPARS Website and the CPARS/FAPIIS application in version 6.5.0 on April 3, 2022.

Release Notes

Description	Reference IDs
Enhancements	
Updated Unique Entity ID where Unique Entity ID (SAM) stands alone and is the authoritative source.	CSR 200251
Security upgrade to prevent user account vulnerabilities with a weak hash code.	CSR 210208
Created a field on the Home Screen for users to search for a Focal Point or a Department Point of Contact (DPOC).	CSR 210314
